PIANOS & MELODEONS.

G. W. KIBBEE

W He has been for many years located in Tennussee as a Taner and Repairer of Pianos, would respectfully call the attention of the sussical public to the fact, that he visating arrange ted New York last year for the purpose of making arrange ments with the best Piano Forte makers to sell their Instru ments with the best Piano Forte makers to sell their Instruments. After spending several weeks in that great ments. After spending several weeks in that great meitopolis, visiting the different manufacturers of note, he came to the conclusion—and who might be judge in this rase if a Tener of treive years is no?—that the Pianos of Clighte, Newton & Bradbury's should be preferred to all others. He accordingly made an agreement with them, whoreby he is enabled to furnish Pianos at retail cost in New York, treight and charges added, so that every one who bays of him may know that he is not paying more for his article than he would be charged by the manufacturers themselves if he were to visit them in person. This House is making twenty Pianos per week, a much greater number it may made by any other in the United States, and for purity and volume of tone and fineness of finish, both in side and out, the proof is that they stand wholly unrivalled. These Pianos were awarded the first premium by the juries of the World's Fair and the Fair of the American Institute in 1833. Among the many Musicians and Amateurs who have from time to time examined these Instruments, testified to their superiority, and recommended them to their trien's, are lowell. Mason and Thos Hastisus, of world-wide celebrity, H. C. Tiese, President of the Phiharmonic Society, N. Y., Tersonous Flerretin, conductor of the Phiharmonic Society, N. Y., Tersonous Flerretin, conductor of the Phiharmonic Society, N. Y., Tersonous Flerretin, conductor of the Phiharmonic Society, N. Y., Tersonous Flerretin, conductor of the Phiharmonic Society, N. Y., Tersonous Flerretin, to his music. I friends and acquaintances, many of them of the highest style and finish—\$600 or \$700.

This is the first New York Piano Agency ever established Ggo F Emistrow, of New York, the distinguished composer, Organist and Planist, was authorized by the New York Harmonic Society to select the best Piano the Could be made for their use. He gave the preference to Lighte, Newton & Bradburty's "large scale" over all others Grand's not excepted, and purchased one for the use of the Society. But Mr. Kimiak deems it annecessary to multiply words to the people of Middle Tennessee. The fact, that he has been for many years a successful Tuner among them, and has met with, and Tuned and Espaired Planos of every make, should inspire confidence in his judgment; and the fact that he regularly visits them twice a year would show that it is more to his interest to sell them a good Plano than it could be to that of any other dealer. As to the price and quality of these Planos, Mr. Kinnar exhibits the price Hst ard description of the Makers, which contains twenty different styles at prices, ranging from \$250 to \$500, at their Ware Rooms, No. 431, Broome Street, New York. So there can be no decertion practiced with reference to price or style of finish, although the Planos are not seen until de liveree, and he is anthorized by Messrs, Lighte, Newton & Bradbury to give warrantees of all their Planos sold by him. Gao F Barsrow, of New York, the distinguished compo sold by him.

Mr. Kieness also visited the well known Melodson Estab-

lishment of Carhart, Needham & Co., No. 97. East 22d St., New York, and made an arrangement with them to furnish Melodeons, so that he can sell them at their New York retail prices, freight added. These Instruments have become very popular in the Eastern and North-Western States, and truly deserve the notice of all those who are "Charmed by concord of sweet sounds."

He has also an arrangement with the firm of Firth, Pond & Co., New York, which enables him to furnish Sheet Music A Co., New York, which enables him to furnish enect static and small Musical Instruments at New York pices.

All communications from the country on the subject of Pianos or Melndeons or of Tuning and Repairing will be promptly attended to. Families residing in the city cwn leave orders at my residence, opposite Odd Fellow's Hall, or address through the Post-Office,

THE undersigned have purchased the Patent right of H. WILLIAMS' DOUBLE ACTING BALL VALVE Force and Lift Pump. For the States of Tennessee, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi and Louisiana. We have tested the Pump in all its recommended uses for ordihave tested the Pump in all its recommended uses for ordinary purposes—in wells, and as fire engines; and henitate not to say that it is seperior to any pump now in use. It is almost and plain in its construction; can be taken to pieces or put together by an ordinary man, black or white, in half a minute. There is not a screw or bolt about the pump; there is the least immarinable friction—hence its durability. It is almost impossible for it to get out of fix by usage.

When used for a sell or cistern it can be converted into a fire Engine in one minute, and by one man water can be thrown over the failled konses in the country. It is invaluable as a fire Engine, and especially in the country or country towns. try towns.

It is equally well adapted to all machinery, Railread Tanks, &c., and will, when known, supersceds all other pumps. It can be used for either het or cold water.

Having fally satisfied urselves as to the capacity, value and utility of the Pump, we are ready to make sales of the above terribury by causalism or States, (except the Western District of this state, which has been sold.) We confidently recommend the Pump to the citizens of the states meretioned,
